We are DXC Technology authorised IMDS & CDX system training & Consulting partner for Australia, Canada, India, Indonesia, Thailand (in Thai) & Vietnam.

WFD (Waste Frame Directive):

The Waste Framework Directive is a European Union Directive concerned with "measures to protect the environment and human health by preventing or reducing the adverse impacts of the generation and management of waste and by reducing overall impacts of resource use and improving the efficiency of such use.

SCIP is the database for information on Substances of Concern In articles as such or in complex objects (Products) established under the Waste Framework Directive (WFD). Companies supplying articles containing substances of very high concern (SVHCs) on the Candidate List in a concentration above 0.1% weight by weight (w/w) on the EU market have to submit information on these articles to ECHA, as from 5 January 2021.
